Plant Conservation and Biodiversity (Topics in Biodiversity and Conservation)

Plant Conservation and Biodiversity (Topics in Biodiversity and Conservation)

Original studies address key aspects of the conservation and biodiversity of plants. Articles are all peer-reviewed primary research papers, contributed by leading biodiversity researchers from around the world. Collectively, these articles provide a snapshot of the major issues and activities in global plant conservation. Many of the articles can serve as excellent case studies for courses in ecology, restoration, biodiversity, and conservation.
