## Teaching the Animal: Human-Animal Studies across the Disciplines

In 2008 Lantern published *Social Creatures*, an encyclopedic collection of articles from the new and exciting discipline of Human-Animal Studies (HAS). *Teaching the Animal* is a followup collection of original pieces that discuss in detail the challenges and opportunities for all teachers of HAS. Split into three sections, *Teaching the Animal* provides in-depth analysis of the nature of the discipline, the resources available, expectations of students and faculty, and a number of sample curricula in the fields of humanities, social sciences, and the natural sciences. *Teaching the Animal* promises to be the definitive handbook for all teachers of HAS at the undergraduate and graduate level. It also offers a comprehensive overview of the state of the disciplines in question and the philosophical and practical issues involved in discussing the intersections of human and nonhuman animals in society.
