This is the book Hillary and Bill Clinton do not want you to read... and a lot of other people do not want you to read. People who want you to *ignore* the evidence in the White House—and in Vince Foster’s office.

A groundbreaking and stunning investigation into the shocking and untimely death of Vincent Walker Foster Jr., the deputy counsel to the President of the United States—President Bill Clinton’s childhood friend and Hillary Clinton’s closest confidante.

On July 20, 1993, Foster was found dead of an apparent self-inflicted gunshot wound in the head in Fort Marcy Park, McLean, Virginia. His passing was the highest ranking government official’s death since President John Kennedy was assassinated in Dallas, Texas, on November 22, 1963.

Foster’s mysterious death sparked a firestorm of controversy that engulfed the nation. Was it murder or suicide? The charges leveled against Hillary and Bill Clinton were serious: Foster knew too much. *They had killed him.* Clinton staffers removed evidence from his office. *Must be a cover-up.* Investigators never found the fatal bullet. *It’s a conspiracy.* On and on it went. But who was right?

Using new information exclusively obtained from the last person who officially saw Foster alive in the White House, and supported by the historical record documented in five official investigations that relied on the “available evidence,” investigative journalist Marinka Peschmann’s findings lead to a terrible conclusion and to a cover-up.

American politics is corrupted, after reading *Following Orders: The Death of Vince Foster, Clinton White House Lawyer*, the sequel to *The Whistleblower: How the Clinton White House Stayed in Power to Reemerge in the Obama White House and on the World Stage*, no longer will Americans wonder how Washington became so broken when they see how those in power thwart the rule of law, obstruct justice, and are never held to account even at the deadly expense of long-time loyal friends and colleagues ... and it's happening again.
