Studying a Study and Testing a Test: How to Read the Medical Evidence (Core Handbook Series in Pediatrics) Richard K. Riegelman MD MPH PhD

In today's rapidly changing world of clinical practice, old assumptions quickly fall under the weight of new evidence. But to make effective clinical decisions, you must face a deluge of data published in the health research literature.

With this best-selling text as your guide, you'll discover a concise, stepwise program that will help you evaluate clinical studies, identify flaws in study design, interpret statistics, and apply evidence from clinical research to your practice.

Sharpen your analytical skills with these insightful features...

- **Step-by-step approach** ideal for both students and practitioners guides you through the health research literature, showing you the ingredients that go into a meaningful study, clues to potential study flaws, and ways to apply solid evidence in clinical practice.
- **Uniform framework** uses a simple six-point framework based on the mnemonic M.A.A.R.I.E. You will learn to evaluate studies in terms of **M**ethods, **A**ssignment, **A**ssessment, **R**esults, **I**nterpretation, and **E**xtrapolation.
- **Hypothetical illustrations** demonstrate the limitations of today's published studies.
- **Unique learning aids**—including question checklists, scenarios illustrating study design, and flaw-catching exercises—help you reinforce key facts and retain what you've learned.

NEW to the Fifth Edition...

- **New "Guide to the Guidelines" section** helps you make sense of established and emerging clinical guidelines, and helps you understand the role of these guidelines in practice.
- **Current information on outcomes** includes discussions of safety and of the effects of interactions on outcomes.
- **More graphic presentation of statistics** helps make complex concepts easy to grasp and apply using a flowchart of statistics.
- **StudyingaStudy.com Website** is an integral feature of this edition providing interactive materials for all sections of the book. The Website provides practice using the M.A.A.R.I.E. framework, interactive flaw-catching and Selecting a Statistics exercises, self-testing questions-answers and exercises using abstracts from real articles.
- **Courses and Journal Clubs** can now use **Studying a Study and Testing a Test** with the help of a special section of the Website.

Clear the path to a new understanding of evidence-based medicine...and integrate today's best evidence into tomorrow's practice. Order your copy of **Studying a Study and Testing a Test, Fifth Edition** today!
