**MoonDust (MoonFall Book 3)** A.G. Wyatt

Sometimes civilization isn't all it's cracked up to be.

As Noah Brennan's world slips into chaos, he is driven away from the only place he's felt he belonged since the moon exploded.

Narrowly escaping with his life and his friends, he is drawn deeper into a journey where one misstep means certain disaster. The only device that can lead him to Astra and any chance of building a better world is in Apollo, but going back may be the end... for them all.

**MoonDust brings the best of pulp sci-fi in a post-apocalyptic setting.** It features clashing civilizations, reluctant heroes, and the mystery of advanced technology, all under the shadow of a terrible tragedy that befell Earth. This series is not about how and why the world ends, it shows something more horrific: what becomes of humanity after everything has turned to dust.

MoonDust is the third book in a series of four.
