The 50 Worst Terrorist Attacks (Praeger Security International) Edward F. Mickolus, Susan L. Simmons

Since the attacks on September 11, 2001, terrorism has remained the chief threat to international stability and security. *The 50 Worst Terrorist Attacks* draws on all forms of terrorism—international, transnational, and domestic—anywhere in the world, covering all types of acts (e.g., bombings, assassinations, armed attacks, skyjackings) by any organization and ideology. The work goes beyond documenting the key events that occurred in or involved the United States; it also covers important terrorist attacks by left- and right-wing organizations, religiously motivated groups, and separatists that are largely unknown among Western audiences.

Each entry supplies the details of the attack—the perpetrators, victims, and eventual resolution—as well as the political, social, and international contexts in which the event occurred. Readers will grasp the evolution of terrorist activities and methodologies in the 20th and 21st centuries, understand the importance of each event in the development of the terrorist repertoire, and gauge the responses intended to counter these new kinds of attacks.
