“International communism is not dead but more powerful and insidious than ever before.” That’s the message of this new book by veteran journalist and media critic Cliff Kincaid. The subject is the Marxist dialectic and communism’s worldwide advance. Chinese Red Army Commander Lin Biao called Marxist dialectics, the communist ideology of struggle and deception, a “spiritual atom bomb,” far superior to the real thing. Lenin called it the “living soul” of Marxism. *The Sword of Revolution and the Communist Apocalypse* explains this dangerous and sinister ideology. For the first time, a former U.S. intelligence agency official explains how the Sino-Soviet “split” deceived U.S. policymakers and weakened the Free World. America’s Survival, Inc. was the first American organization that warned about Barack Obama’s Marxist background and outlook when he ran for president in 2008. This book explains how Marxists have carried out the “fundamental transformation” of the United States, as Obama called it, and how Pope Francis has become the leading proponent of a world government based on Marxist principles.
