Mars 3-D: A Rover's-Eye View of the Red Planet Jim Bell

Planetary scientist Jim Bell leads us on another exhilarating tour of the Red Planet—and this revised, expanded edition of *Mars 3-D* includes the latest images from NASA's revolutionary Mars Science Laboratory mission. Brief essays survey the advanced technologies and promising discoveries of the Mars exploration rover program, followed by 150 spectacular full-color and 3-D photos. More than 30 brand-new pictures taken over the past five years reveal the rocks, craters, valleys, and other geologic configurations that define the Martian terrain, while captions explain the various conclusions scientists have drawn about the planet's geological composition. Bell has first-hand experience with both rover missions, and his considerable expertise provides astronomy buffs with a cutting-edge look at this always-intriguing planet. 3-D glasses are included!

From reader reviews:

Greta Rivera:

A lot of people always spent their own free time to vacation or go to the outside with them family members or their friend. Are you aware? Many a lot of people spent that they free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity that's look different you can read the book. It is really fun in your case. If you enjoy the book you read you can spent the whole day to reading a e-book. The book Mars 3-D: A Rover's-Eye View of the Red Planet it is rather good to read. There are a lot of people who recommended this book. They were enjoying reading this book. If you did not have enough space to deliver this book you can buy typically the e-book. You can m0ore easily to read this book from a smart phone. The price is not to cover but this book has high quality.

Melinda Anderson:

Reading can called thoughts hangout, why? Because when you are reading a book particularly book entitled Mars 3-D: A Rover's-Eye View of the Red Planet the mind will drift away trough every dimension, wandering in each and every aspect that maybe unknown for but surely can be your mind friends. Imaging every word written in a reserve then become one form conclusion and explanation this maybe you never get before. The Mars 3-D: A Rover's-Eye View of the Red Planet giving you one more experience more than blown away your thoughts but also giving you useful info for your better life in this particular era. So now let us show you the relaxing pattern here is your body and mind is going to be pleased when you are finished looking at it, like winning a casino game. Do you want to try this extraordinary investing spare time activity?

Bruce Patton:

Your reading 6th sense will not betray you actually, why because this Mars 3-D: A Rover's-Eye View of the Red Planet e-book written by well-known writer who really knows well how to make book that may be understand by anyone who else read the book. Written with good manner for you, still dripping wet every ideas and composing skill only for eliminate your own personal hunger then you still uncertainty Mars 3-D: A Rover's-Eye View of the Red Planet as good book not merely by the cover but also with the content. This is one publication that can break don't evaluate book by its cover, so do you still needing one more sixth sense to pick this!?! Oh come on your looking at sixth sense already told you so why you have to listening to another sixth sense.

Brenda Burrows:

Is it an individual who having spare time then spend it whole day by watching television programs or just lying on the bed? Do you need something new? This Mars 3-D: A Rover's-Eye View of the Red Planet can be the reply, oh how comes? A fresh book you know. You are and so out of date, spending your spare time by reading in this brand-new era is common not a geek activity. So what these publications have than the others?
