It's time to set the record straight about 2012.

According to the ancient Mayan prophecies, a major event is going to affect the entire world on December 21, 2012. In this book, many theories, possibilities, predictions, and prophecies are discussed for the purpose of uncovering the true meaning behind the end of the Mayan Long Count Calendar.

Why did the Mayans believe they came from the Pleiades? Why did their astronomical calendar revolve around the star Alcyone? Why did this advanced civilization build pyramids that are equal in stature to the Egyptian pyramids? Why did the ancient Mayans suddenly disappear in 900 CE? How did they obtain such vast knowledge in art, science, mathematics, language, hieroglyphics and sports? In this book, an investigation into the mysteries of the Mayans is revealed that includes meaningful answers to these questions and many more.

As 2012 approaches, many Doomsayers are insisting that the Earth is headed for destruction. Nothing could be further from the truth. Even so, with frightening prophecies of crystal skulls, disastrous accounts from ancient codices, and other alarming signs of the time, many people are convinced that Armageddon is just around the corner. In fact, the Mayans had no intention of predicting the end of the world and their greatest secret has been suppressed for centuries. Read this book to discover the ultimate meaning of 2012.
