U.S. Government, Department of Defense (DoD), U.S. Military, U.S. Marine Corps (USMC)

This unique print replica reproduction, totaling over 3600 pages, compiles all five volumes of the famous U.S. Marine Corps (USMC) series of World War II histories. The five volumes are: Pearl Harbor to Guadalcanal, Isolation of Rabaul, Central Pacific Drive, Western Pacific Operations, and Victory and Occupation.

Pearl Harbor to Guadalcanal - This book covers Marine Corps participation through the first precarious year of World War II, when disaster piled on disaster and there seemed no way to check Japanese aggression. Advanced bases and garrisons were isolated and destroyed: Guam, Wake, and the Philippines. By publishing this operational history in a durable form, it is hoped to make the Marine Corps record permanently available for the study of military personnel, the edification of the general public, and the contemplation of serious scholars of military history.

Isolation of Rabaul - The series of Central Pacific operations that began at Tarawa in November 1943 marked a period of steadily increasing momentum in our drive toward the Japanese home islands. To a great extent, these operations were periods of trial—and occasionally of error—when our amphibious striking force, the Fifth Fleet and the V Amphibious Corps, tested and proved the basic soundness of the doctrine, tactics, and techniques developed by the Navy and Marine Corps in the years before World War II.

Central Pacific Drive - The story of individual campaigns, once told in separate detail in preliminary monographs, has been reevaluated and rewritten to show events in proper proportion to each other and in correct perspective to the war as a whole. New material, particularly from Japanese sources, which has become available since the writing of the monographs, has been included to provide fresh insight into the Marine Corps' contribution to the final victory in the Pacific. During the period covered in these pages, we learned a great deal about the theory and practice of amphibious warfare.

Western Pacific Operations - After the amphibious assault of Guadalcanal, which marked the opening of the American offensive in the Pacific, the steadily accelerating tempo of successful operations against the enemy inexorably led to an Allied victory in the war. Highlighting American operations was the Navy-Marine Corps team's extensive reliance on the employment of amphibious warfare techniques developed in the years before the war and improved upon under combat conditions.

Victory and Occupation - This book represents the final work in the five-volume history of Marine Corps operations in World War II. The story of the Okinawa campaign, told earlier in a separate monograph, has been reevaluated and rewritten to detail events in proper proportion to each other and in a correct perspective to the war as a whole. New material, particularly from Japanese sources and from the recorded interviews conducted with senior Marine Corps officers who participated in the Marine Corps Oral History Program,

has been included to provide fresh insight into the Marine Corps' contribution to the final victory of the Pacific War.

These pages cover Marine Corps activities in the Okinawa invasion and the occupations of Japan and North China as well as the little-known story of Marine prisoners of war. The book relates the Corps' postwar demobilization and reorganization programs as well.
