Beyond the City: The Rural Contribution to Development (Latin America and Caribbean Studies)

David de Ferranti, Guillermo E. Perry, Daniel Lederman, William Foster, Alberto Valdes

In Latin American and Caribbean history, rural societies have been at the center of both the origins of prosperity and of social upheaval. Rural communities have access to a wealth of natural resources, including arable land and forests, yet they face the highest poverty rates within countries. Characterized by low population densities and located far from the major urban centers, rural communities must overcome severe restrictions in their access to public services and private markets, even in some countries where public expenditures per inhabitant are higher in rural than in urban communities. 'Beyond the City' evaluates the contribution of rural development and policies to growth, poverty alleviation, and environmental degradation in the rest of the economy, as well as in the rural space. This title brings together new theoretical and empirical treatments of the links between rural and national development. New findings and are combined with existing literature to enhance our understanding of the how rural economic activities contribute to various aspects of national development. The study is based on original research funded by the World Bank's Office of the Chief Economist for Latin America and the Caribbean. Of particular relevance is the interaction between agricultural and territorial development issues. The empirical findings also make substantial contributions to the debate over the appropriate design of public policies aiming to enhance the rural contribution to national development, including economic growth, poverty reduction, environmental sustainability, and macroeconomic stability.

Staci Luton:

Your reading sixth sense will not betray you, why because this Beyond the City: The Rural Contribution to Development (Latin America and Caribbean Studies) e-book written by well-known writer whose to say well how to make book that could be understand by anyone who all read the book. Written throughout good manner for you, leaking every ideas and creating skill only for eliminate your own hunger then you still hesitation Beyond the City: The Rural Contribution to Development (Latin America and Caribbean Studies) as good book not simply by the cover but also with the content. This is one e-book that can break don't ascertain book by its deal with, so do you still needing another sixth sense to pick this specific!? Oh come on your studying sixth sense already told you so why you have to listening to a different sixth sense.

Buddy Beckstead:

As a university student exactly feel bored in order to reading. If their teacher asked them to go to the library or make summary for some guide, they are complained. Just little students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring in

addition to can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Beyond the City: The Rural Contribution to Development (Latin America and Caribbean Studies) can make you experience more interested to read.
