- What a strange study about hitting dolls or treating them kindly can teach you about how others affect your beliefs about your competence. **It's the second most effective way to increase the strength of your belief in your abilities.**
- What a phenomenon discovered by a German industrial psychologist can teach you about motivation. **There's a simple way to inspire you to put more effort into your goals.**
- **The #1 key to improving the confidence in your abilities.** If you don't have time to read the entire book, read this one tip alone.
- What a study on experts and novices can teach you about how experts approach problems. You too can adapt this behavior to **shorten your learning curve and develop a stronger belief in your abilities.**
