America has long been viewed as a beacon of hope to the rest of the world. After all, it's the home of the American dream, democracy, and capitalism. Yet over the years, our society has slowly moved down the path of socialism by members of our own government. Our elected members of Congress no longer serve the people, only themselves and their personal agenda. It's time we put a stop to their intentional abuse and reset the system. But how? *We've Lost Our Way* attempts to answer this question. George Damroth points out how this nation has gone astray, puts the issues in perspective, and offers some reasonable solutions. It's not one political party that is the cause of our problems it's the system and the people who control it. The struggle to keep the American dream alive is not lost. Change is possible, and the ideas offered in this book are straightforward and relatively easy to implementless members in the House of Representatives, more technologically advanced voting strategies, an increased focus on states' rights, to name a few. We might have lost our way, but we can find it againall we have to do is take the first step.
