For those whose course including a laboratory component, a Laboratory Manual, compiled and edited by Gail A. Steehler (Roanoke College), is available for the 6th edition. The experiments use microscale equipment (wellplates and Beral-type pipets) and common materials. Project-type and cooperative/collaborative laboratory experiments are included. New experiments are on the ozone and biodiesel. Additional experiments are available on the Online Learning Center, as is the instructor's guide.
