Analysing Survival Data from Clinical Trials and Observational Studies

Ettore Marubini, Maria Grazia Valsecchi

Analysing Survival Data from Clinical Trials and Observational Studies Ettore Marubini, Maria Grazia Valsecchi

A practical guide to methods of survival analysis for medical researchers with limited statistical experience. Methods and techniques described range from descriptive and exploratory analysis to multivariate regression methods. Uses illustrative data from actual clinical trials and observational studies to describe methods of analysing and reporting results. Also reviews the features and performance of statistical software available for applying the methods of analysis discussed.
