*Book seven of The Gaslight Chronicles*

When airship engineer Melody McKay's dirigible explodes and plunges her into the yard of a gothic manor, she suspects foul play. With her ankle injured—an indignity far too feminine for her taste—she resolves to crack the mystery while in the care of Victor Arrington, the stuffy-yet-disarming Earl of Blackwell.

Ex-Royal Navy Captain Victor runs a tight house and is on a mission to protect his niece and foil a ring of smugglers using fire-breathing metal dragons. He has no time for romantic attachments. Particularly not with women who fall from the sky wearing trousers and pilot's goggles.

As he and Melody navigate a treachery so deep it threatens the lives of everyone in Black Heath, the earl becomes unexpectedly attached to his fiery houseguest, and Melody discovers a softness in her heart for him. But when the smugglers strike, there's more at risk than just their future together.
