**Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics)** Hans Stephani, Dietrich Kramer, Malcolm MacCallum, Cornelius Hoenselaers, Eduard Herlt

A completely revised and updated edition of this classic text, covering important new methods and many recently discovered solutions. This edition contains new chapters on generation methods and their application, classification of metrics by invariants, and treatments of homothetic motions and methods from dynamical systems theory. It also includes colliding waves, inhomogeneous cosmological solutions, and spacetimes containing special subspaces.

**From reader reviews:**

**Hilda Szymanski:**

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite book and reading a guide. Beside you can solve your condition; you can add your knowledge by the reserve entitled Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics). Try to face the book Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics) as your good friend. It means that it can to get your friend when you sense alone and beside associated with course make you smarter than before. Yeah, it is very fortunated in your case. The book makes you considerably more confidence because you can know almost everything by the book. So , let us make new experience along with knowledge with this book.

**Michael Short:**

Book is to be different for each and every grade. Book for children right up until adult are different content. As you may know that book is very important normally. The book Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics) ended up being making you to know about other expertise and of course you can take more information. It doesn't matter what advantages for you. The book Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics) is not only giving you much more new information but also being your friend when you feel bored. You can spend your personal spend time to read your book. Try to make relationship using the book Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics). You never sense lose out for everything should you read some books.

**Cristen Washington:**

Reading a book tends to be new life style on this era globalization. With reading through you can get a lot of information that will give you benefit in your life. Having book everyone in this world can easily share their idea. Books can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or even their experience. Not only the storyplot that share in the books. But also they write about the data about something that you need example. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors nowadays always try to improve their expertise in writing, they also doing some study before they write to their book. One of them is this Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics).

**Thelma Cobb:**

Your reading sixth sense will not betray a person, why because this Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics) guide written by well-known writer who knows well how to make book which might be understand by anyone who have read the book. Written

within good manner for you, dripping every ideas and creating skill only for eliminate your own hunger then you still skepticism Exact Solutions of Einstein's Field Equations (Cambridge Monographs on Mathematical Physics) as good book not simply by the cover but also through the content. This is one publication that can break don't judge book by its handle, so do you still needing yet another sixth sense to pick this specific!?! Oh come on your reading through sixth sense already told you so why you have to listening to yet another sixth sense.
