Matemática: Estás ahí, Episodio 2 (Spanish Edition) Adrian Paenza

Si el primer libro del periodista y matemático Adrian Paenza representaba la continuación de su tarea como divulgador de ciencia, el Episodio 2 lo consolida en su pasión por mostrar como es que pensamos matemáticamente desde que estimamos distancias al cruzar la calle o calculamos las probabilidades de que un equipo favorito gane el campeonato mundial hasta cuando jugamos un Sudoku. Con entusiasmo y dedicación, y un estilo propio cálido y directo, el autor cuenta aquí a cada lector una serie de historias sobre números, acertijos y curiosidades matemáticas que lo hará mirar el mundo de otra manera y descubrir el placer de tener en la cabeza un problema sin resolver. Este Episodio 2 explora aspectos insospechados de la materia más temida como son las probabilidades o las intuiciones matemáticas, mediante preguntas como cuántas carretillas llenas de monedas se necesitan para hacer una pila del tamaño de un edificio de 100 pisos? o en qué orden conviene jugar a la ruleta rusa?, y se zambulle así en la teoría de juegos como un aporte a la educación de la mente creativa, entre más temas. Publicado en la Argentina en septiembre de 2005, el primer Matemática está ahí? lleva vendidos 120.000 ejemplares en 11 ediciones y se ubica desde hace más de 50 semanas primero entre los libros de no ficción más vendidos, con lo que constituye un fenómeno editorial sin precedentes en las últimas décadas. La obra ha sido publicada en España y próximamente será editada en Brasil y México.
