Collaboration Systems: Concept, Value, and Use (Advances in Management Information Systems) Jay F Nunamaker Jr, Robert O Briggs, Nicholas C Romano Romano Jr

This volume emphasises knowledge transfer from the lab to the field and describes collaboration technology through three lenses: Proof of Concept, Proof of Value, and Proof of Use. The contributors focus on work practices that extend collaboration into a structured form where groups can work together to solve real-world complex problems. As with the other AMIS volumes, the contributors comprise internationally known experts in the field of Information Systems.

Includes online access.
