How To Build a Cheap Hot Rod (Motorbooks Workshop)

Dennis W. Parks

How To Build a Cheap Hot Rod (Motorbooks Workshop) Dennis W. Parks

The ever-escalating cost of building or buying a hot rod is leaving more and more would-be hot rodders behind. This book will get those hopefuls off the sidelines by showing how a hot rod can be built for less than the cost of, say, a new Hyundai.

Author Dennis Parks documents his own project--building a quintessentially cool Model T roadster from a "Track-T" kit--showing in step-by-step detail how to turn a pile of parts into a rockin hot rod. He provides a detailed, easy-to-follow guide for building a car of your own.

The advice and instructions cover every aspect of an affordable hot rod build, from establishing the target vehicle and budget, to finding parts, building the car, and fine tuning the finished vehicle on the road.

With Parks' money-saving tips and photo-supported how-to sequences, virtually anyone with minimal mechanical skills and the will to use them can be sure of building their hot rod right, and for the right price. The book also includes a full resource guide and recommendations for further reading.
